JOY TO YOUR WALLET

OUR HOLIDAY SKIP-A-PAYMENT PROGRAM* IS HERE!

To help you out with the expensive holiday season, we're offering you the chance to skip a payment on any or all loans in good standing (excluding real estate loans, student loans and credit card accounts) for the month(s) of November or December.

Here's how it works:

- Processing fee of \$25 per loan applies. Fee may be deducted from your savings account.
- The interest on your loan will continue to accrue throughout the month that you skip your payment.
- If your loan payments are paid through payroll deduction, the amount of your payment will be available as payroll deductions are received (weekly, bi-weekly, or monthly) from your employer.
- Visit www.frecu.org to print a skip-a-pay form. Fax the completed form to us at (850) 671-6627.

**All Florida Rural Electric Credit Union accounts must be in good standing. All real estate, credit card, student loan, and delinquent loans are excluded. Your request must be received at least ten days prior to the due date of your loan. Participating in the Skip-A-Payment program will extend the life of your loan.*

'Tis the season for SAFE online shopping 10 Tips to remember!

Don't fall victim to online fraudulent activity during the busy shopping season. Stay safe by keeping these online shopping tips in mind!

1. Research all websites and retailers you're purchasing from to ensure legitimacy.
2. Take care when entering personal information online and only complete those fields necessary to make the purchase.
3. Always make sure the site you are on is security enabled with a web address that begins with https://.
4. Review retailers' return and other policies to understand what happens if the product doesn't arrive or isn't right.
5. Use a safe payment option – Credit cards are typically the safest as they allow buyers to seek a credit from the issuer if the product isn't delivered or isn't what was ordered.
6. Be smart about purchases you conduct over public Wi-Fi connections and adjust any security settings on your device to limit who can access your phone.
7. Run the most current version of software and apps to keep all your web-connected devices free from malware and infections.
8. Turn on two-step authentication where possible for added security.
9. Use a strong password that is a sentence and at least 12 characters long where possible.
10. Create a unique password for every account.
